

Priority Ranker

	10	9	8	7	6	5	4	3	2	1
1										
2										
3										
4										
5										
6										
7										
8										
9										
10										

Instructions:
List your priorities twice: once on the vertical axis and once on the horizontal.
Compare each pair and give the higher ranking item a vote in the box.
Tally the votes and you have a ranked list.
